

PRISM® Stack Lift

FEATURES

- Infrared eye beam control for auto leveling
- Platform plate for flush to ground loading or unloading
- Ergonomic design
- Casters for portability
- High production capacity
- Can be used on the right or left side

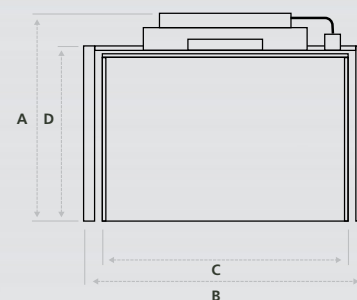

The PRISM Stack Lift allows a cutting line to become quicker, efficient, and more ergonomic. PRISM Stack Lifts are built to allow skids of paper to be lifted or lowered for loading or unloading of guillotine paper cutters and jiggers. An adjustable, automatic infrared eye beam makes leveling a cinch. PRISM Stack Lifts can be used on the right or left side of your paper cutter or paper jogger.
